Fellowship Groups

We have said a lot about fellowship over the last few weeks. There is a reason for this, we believe it is important. It is important to God and so it is important to us. It is important for the growth and maturity of God's people. It is necessary for our well-being. As a way for us to take an intentional step toward fostering fellowship and relational growth we are starting Fellowship Groups. As we have mentioned the purpose of these groups is to simply create a way for us to intentionally get to know one another in ways we may not have been able to previously.

We have identified leaders who will assist us in communicating which group you will be in and who will provide information to you each week regarding which family you will talk to. Currently we are finalizing membership in the groups and gathering contact information. We hope to get these Fellowship Groups going by February 8th. We are excited about this program and pray that God will work through it to form new relationships, strengthen old ones and encourage all of us.
